Advantage #1
Team Scalability

Advantage #2
Strategic vs Tactical Focus

Advantage #3
Reusability

Advantage #4
Technology Agnosticism

Disadvantage #1
Complexity

Disadvantage #2
No Standards

Step #1
Site Audit for MFEs

Make sure the targets are for different interaction models, different data requirements, client or server loading etc.

This includes knowing what you need like when to render, data requirements, communication with host and other pages

Evaluate the available options in the market.
